### The Star of Bethlehem

Missy, knowing my love for astronomy, told me a few weeks ago that the Star of Bethlehem will be appearing this year for the first time in 800 years. I was amazed and thought I can't wait to gaze at that through my telescope.

A little research revealed that the last time this star appeared was March 4, 1226. The next time it will appear will be in March, 2080, and then it will not reappear until after 2400. This astronomical phenomenon will only be viewable from 12/16 – 12/21 and will be seen about one hour after sunset.

We know well of the biblical account of the Magi, sometimes called the three Wise Men, or as I lovingly call them, the three wise-guys. They followed the star to find Jesus in the Manger. Matthew 2:1-12 records the account. A few things need to be noted about the story that we mark on the first Sunday after Christmas, called Epiphany. First, the Bible does not tell us there were three wise men. The number three is derived from the three gifts of gold, frankincense, and

myrrh. We don't know how many were involved in the search for Jesus in the manger. Second, what is reported as a star is really the conjunction of Jupiter and Saturn. It may actually appear as a double-planet, but it will also be quite bright. The notion of the Jupiter Saturn conjunction being the star of Bethlehem wasn't even postulated until the 17<sup>th</sup> century by the German astronomer Kepler. Third, it seems that every effort to verify the conjunction of these two planets after Jesus birth would place the timing about 7 B.C. Even if Jesus were born in 5 B.C., as is often suggested, it is still off by two years. In addition, the wise men might not have even arrived until Jesus was about 2 years old, hence Herod's edict. Fourth, every other astronomical explanation including a comet, sometimes referred to as the "Broom Star," meteor, or supernova simply cannot be verified.

The simple fact of the matter is that the Star of Bethlehem was not an astronomical event. Rather it was an epiphany, hence the name of the day. An epiphany is an appearance of a divine entity. Some may argue that it was a theophany, that is, a manifestation of God. Either way, the "star" the wise men followed was something that God provided to guide them to the right location. It is unfortunate that some number of Christians over the years have tried to reconcile the works of God with natural phenomena to justify the reality of the event. It is further unfortunate because such unnecessary explanations discredit them and the Christian faith. In this

instance, the fallacious aspects of the Magi have led to an incorrect understanding of the meaning of the story. While we may have heard the gifts and their symbolic meanings, (gold symbolizing royalty or kingship on earth, frankincense symbolizing deity, and myrrh symbolizing death as it is an embalming oil), the purpose of recording the account can be missed. While the symbolism of the gifts may be valid, these were standard gifts offered to any king or deity in the ancient world. Even the names, Balthasar, Melchior, and Gaspar were not recorded until sometime between the 6<sup>th</sup> and 8<sup>th</sup> centuries. And as if those issues were not enough, even one of our most popular Christmas hymns, “We Three Kings” is a mistranslation of the word “magi” that literally means magician. Of course, a magician in that time was not as we know today as sleight-of-hand performers. Rather, these were people of noble-birth, educated, wealthy and influential in their respective cultures.

The most significant part of the problem is that the Magi account is separated from the rest of the story in chapter 2. Matthew never intended that the Magi account be utilized as a classic Christmas time story with the gifts as focal points. He certainly never intended it to be separated from the rest of the chapter.

The events recorded in chapter 2 are a part of a larger literary segment that includes 1:1 through 4:25. As a literary unit, we may call it: *The Beginnings of Jesus’ Ministry – A Setting free through his life*. This portion of Matthew’s Gospel, (this Gospel was written for a Jewish audience), is structured in a 7-part chiasm. What we discover in that arrangement is that the account of Magi is the second of five proofs Matthew offers to verify that Jesus is the Messiah. In fact, the focal point is not the Magi, or even Herod’s persecution. It is about geography. This text fulfills the prophecies of the family’s movement from Bethlehem to Egypt to Nazareth. The prophecies minimally include Jeremiah 23:5 and Numbers 24:7 for verse 2:2. Micah 5:2 and 2 Samuel 5:2 for verses 2:5-6. Hosea 11:1 for verse 2:15. Jeremiah 31:15 for verses 2:16-18. Isaiah 53:3 for 2:23.

Additionally, there is a theological revelation that can be observed that parallels Moses with Jesus:

<u>Moses</u>	<u>Jesus</u>
Pharaoh	Herod
1 <sup>st</sup> born male killed	Males under 2 killed
Escape in the Nile	Escape to Egypt
Left Egypt to go	Left Egypt to go
Israel	Israel

Thus, the Story of the Magi and Herod is indeed the second proof Matthew offers the Jewish reader, and us, to show through the completed prophesied geographical movements of the family, that Jesus is the Messiah.

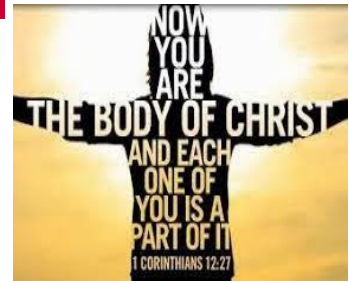

Enjoy the celestial conjunction as it seems Jupiter and Saturn will be quite close, thus making their appearance exceptionally bright. Hopefully, we will have clear skies.

Merry Christmas!

Pastor Dan
